

Farm Day 2024

Written by: Averi Stitzel

This year, our FFA chapter put together our annual Farm Day on May 14th. Every year at Greenon High School, our FFA chapter hosts what we call “Farm Day” which is a day during school where elementary students get a chance to have a fun day out of the classroom and learn about agriculture and animals! Our FFA chapter members have a chance to bring in their own livestock to participate in the learning activities and give children a chance to pet animals and learn about them. All FFA members have to come up with a fun, creative activity for the children to participate in if they did not bring in an animal. This year my group decided to bring in washable paint and let children paint some farm animals using their handprints and thumbprints! Along with the painting, we also made sure to include some fun facts about each of the farm animals that they were painting. Farm Day gives children the opportunity to see animals that they may not be used to seeing often, and they are always able to learn about multiple aspects of agriculture.
