

Job Interview

Written By: Kaylee Smith

Edited By: Allie Hundley

At the 2022 Clark County Job Interview Contest we went to Stem High School in Springfield. When arriving we were taken back into a room where we had 15 minutes to fill out a job application. From there we went back into the waiting area and prepared for our interviews. In the sophomore interview room there were two judges there. I was applying for the Animal Shelter Volunteer job so they asked me many questions relating to that topic. They made this contest feel like I was really applying for that position. After the interview concluded we went into another room and we had 5 minutes to write a follow up letter. I really liked this contest because it gave me real life experience that I will be able to use.
