FFA Camp

FFA camp was an amazing week-long experience that I would recommend to any FFA member. At camp, we were put into a cast with other FFA members from different chapters. This allowed me to step out of my comfort zone. This interaction with different chapters FFA members gave me the opportunity to interact with people I otherwise would not have met. During the week, there was never a dull moment. There was always something to do from one of the many activities they allowed us to choose from. Some of the activities included the gun range, archery, boating and many more things as well. During the workshops, we worked on team building. All the cast participated in games and competitions throughout the week. By the end of the week, the cast with the most points won. One of my favorite activities that we had was the dances. We got to dress up and hang out with people from our chapter, along with new friends from other chapters. If we didn't want to dance, there were games that we could play. At the end of every day, we had story time around the fire. This was a great reflection time. The stories were meant to inspire you and get you thinking of the person you're wanting to be. It inspired me to set goals I want to accomplish. Camp was so much fun and I learned a lot and I can't wait to go back.
